CAMBRIDGE, Mass. and ROSTOCK, Germany and BERLIN, July 15, 2022 (GLOBE NEWSWIRE) -- Centogene N.V. (Nasdaq: CNTG), the commercial-stage essential biodata life science partner for rare and neurodegenerative diseases, today announced financial results for the first quarter ending March 31, 2022, reaffirmed guidance, and provided a business update.

"We are on track with our renewed focus on the Core Business. The Diagnostics segment continued to show double digit growth rates year-over-year and is planned to grow faster than the market. We are on target to enhance our Pharma offering – broadening our commercial team, marketing a differentiated product portfolio, and growing the pipeline to return the Pharma segment to steady growth in 2022. We see the extension of the market access partnership with Takeda and the new contract with Agios as important proof points of our biopharma strategy," stated Kim Stratton, Chief Executive Officer at CENTOGENE. "In the first quarter, we phased out the COVID-19 Testing Business as planned, allowing our organization to pivot and be focused on Core Business execution."

First Quarter 2022 Financial Highlights

- Overall revenues of €10.3 million (excluding the discontinued operation) were recorded in Q1 2022, a 3% increase compared to €10.0 million in Q1 2021
- Diagnostics segment revenues of €7.1 million in Q1 2022, an increase of 11% compared to €6.4 million in Q1 2021, reflecting the fourth consecutive quarter of year-over-year revenues growth in the segment. The increase in revenues was primarily related to an increase in revenues from Whole Exome Sequencing (WES) and Whole Genome Sequencing (WGS) of 18%
- Pharma segment revenues of €3.2 million in Q1 2022, a decrease of 10% compared to €3.6 million in Q1 2021
- The COVID-19 Testing Business was phased out in Q1 2022 and reported as discontinued operations but no longer as a segment. Revenues from the COVID-19 Business were €19.5 million in Q1 2022, compared to €55.0 million in Q1 2021.
 Discontinued operations in the period contributed positively to net income and cash flow
- Net loss of €6.4 million in Q1 2022, compared to net loss of €4.8 million in Q1 2021
- Total segment adjusted EBITDA of €1.9 million for the two continuing segments was recorded in Q1 2022, compared to €2.6 million in Q1 2021. This mainly reflects the lower proportion of revenues in the higher margin Pharma segment
- Adjusted EBITDA from COVID-19 business for the three months ended March 31, 2022 was €6,106 thousand as
 compared to €10,167 thousand for the three months ended March 31, 2021. The decrease was driven by the reduction in
 COVID-19 test order intakes as the business was phased out
- Cash and cash equivalents were €42.7 million as of March 31, 2022, compared to €17.8 million for the period ending December 31, 2021. The reported cash position per end of Q1 2022 reflects proceeds from the debt (first tranche) and equity financings completed in February 2022

"With the completion of the financings earlier this year, CENTOGENE is operating from a stable financial position. We rolled out multiple initiatives to extend our cash runway by closely managing margins and corporate expenses. As a result, we are expecting to show improvements in our 2022 adj. EBITDA versus the prior year," added Miguel Coego, Chief Financial Officer of CENTOGENE.
