About CENTOGENE

CENTOGENE (Nasdaq: CNTG) is transforming real-world clinical, genetic, and multiomic data to enable better health outcomes for patients with rare and neurodegenerative diseases. For over 15 years, CENTOGENE has been providing diagnostic insights to patients with genetic diseases through our network of nearly 30,000 active physicians. CENTOGENE now believes its Biodatabank is the world's largest real-world data repository of corresponding patients from more than 120 countries. Simplified logistics solutions, including CentoCard® for sending biosamples, and our ISO, CAP, & CLIA certified state-of-the-art multiomic reference labs offer patients rapid and reliable diagnoses to support the identification and personalization of their treatments. Ultimately, offering the best treatment for patients involves developing new or better therapies. We are de-risking orphan drug discovery and development by partnering with more than 30 biopharma in target & drug screening, clinical development, market access and expansion. CENTOGENE engages in biodata partnerships with our Biodata Licenses and Insight Reports.
