

CENTOGENE Receives Nasdaq Notification Regarding Minimum Market Value of Publicly Held Shares Deficiency

June 14, 2023

CAMBRIDGE, Mass. and ROSTOCK, Germany and BERLIN, June 14, 2023 (GLOBE NEWSWIRE) -- Centogene N.V. (Nasdaq: CNTG) ("we" or the "Company"), the essential life science partner for data-driven answers in rare and neurodegenerative diseases, today announced that it has received a written notification (the "Notification Letter") from the Nasdaq Stock Market LLC ("Nasdaq") dated June 8, 2023, indicating that the Company is not in compliance with the minimum Market Value of Publicly Held Shares ("MVPHS") set forth in the Nasdaq Rules for continued listing on the Nasdaq Global Market. Nasdaq Listing Rule 5450(b)(3)(C) requires companies to maintain a minimum MVPHS of USD 15 million, and Listing Rule 5810(c)(3)(D) provides that a failure to meet the MVPHS requirement exists if the deficiency continues for a period of 30 consecutive business days. Based on the MVPHS of the Company for the 30 consecutive business days from April 26, 2023 to June 7, 2023, the Company no longer meets the MVPHS minimum requirement. This notification does not impact the listing and trading of the Company's securities at this time.

Pursuant to Nasdaq Listing Rule 5810(c)(3)(D), the Company has a compliance period of 180 calendar days (or until December 5, 2023) to regain compliance. If at any time during this compliance period the Company's MVPHS closes at USD 15 million or more for a minimum of ten consecutive business days, Nasdaq will notify the Company that it has achieved compliance with the MVPHS requirement, and the MVPHS matter will be closed.

As previously announced, the Company also has a separate Nasdaq Global Market deficiency in the requirement that it maintain a minimum bid price of US\$1.00 for its common shares listed on Nasdaq ("MBP"). The Company has until October 23, 2023 to regain compliance with the MBP requirement.

In the event the Company does not regain compliance with Rule 5450(b)(3)(C) prior to the expiration of the compliance period, it will receive written notification that its securities are subject to delisting.

The Company's business operations are not affected by the receipt of the Notification Letter. The Company intends to monitor its market value between now and December 5, 2023.

About CENTOGENE

CENTOGENE's mission is to provide data-driven, life-changing answers to patients, physicians, and pharma companies for rare and neurodegenerative diseases. We integrate multiomic technologies with the CENTOGENE Biodatabank – providing dimensional analysis to guide the next generation of precision medicine. Our unique approach enables rapid and reliable diagnosis for patients, supports a more precise physician understanding of disease states, and accelerates and de-risks targeted pharma drug discovery, development, and commercialization.

Since our founding in 2006, CENTOGENE has been offering rapid and reliable diagnosis – building a network of approximately 30,000 active physicians. Our ISO, CAP, and CLIA certified multiomic reference laboratories in Germany utilize Phenomic, Genomic, Transcriptomic, Epigenomic, Proteomic, and Metabolomic datasets. This data is captured in our CENTOGENE Biodatabank, with over 750,000 patients represented from over 120 highly diverse countries, over 70% of whom are of non-European descent. To date, the CENTOGENE Biodatabank has contributed to generating novel insights for more than 275 peer-reviewed publications.

By translating our data and expertise into tangible insights, we have supported over 50 collaborations with pharma partners. Together, we accelerate and de-risk drug discovery, development, and commercialization in target & drug screening, clinical development, market access and expansion, as well as offering CENTOGENE Biodata Licenses and Insight Reports to enable a world healed of all rare and neurodegenerative diseases.
